

CLAMPING AND BRAKING ELEMENTS

INDIVIDUALIZATION LEVER EXTENSION

► SPECIFICATIONS COMPARED TO STANDARD PRODUCT

- Avoidance of interfering contours thanks to the extended lever
- Simple integration into existing designs
- Standardized extensions in 25/50/100/150/200mm

► CUSTOMIZABLE SERIES

Series HK
Clamping element

Series HKR
Clamping element

► APPLICATION DESCRIPTION

- If space is limited, the clamping lever can be mounted on the outside using an extension.
- This ensures better accessibility.
